EXPERIENCE

ICIER 🔗 | Junior Web Development Intern

05/2024 – 06/2024

- Built a university event booking web application for a startup named Orenge under the guidance of ICIER.
- Development stack: MERN (MongoDB, Express.js, React.js, Node.js), Tailwind CSS, Prisma ORM.

HACK-X Security 🔗 | Junior Software Development Intern

04/2023 – 06/2023

- Contributed to developing Hack-X Node, a scalable web application that automated testing processes and handled hundreds of users daily.
- Development stack: MERN (MongoDB, Express.js, React.js, Node.js), Flask, SCSS, Chart.js, Mongoose ORM.

PROJECTS

Intervo 🔗 | MongoDB, ExpressJS, ReactJS, NodeJS

- Developed a Interview Management System (IMS) to streamline the recruitment process for companies.
- The system caters to different roles, including company administrators, interviewers, and candidates, ensuring smooth tests and interview processes using video conference library VideoSDK.

CodeCampus 🔗 | MongoDB, ExpressJS, ReactJS, NodeJS

- A dynamic web app for educational videos, fostering an engaging and interactive learning community.
- Users can watch, upload, like, dislike, save videos and create playlists.

TestPoint 🔗 | Mongo DB, ExpressJS, EJS, NodeJS

- A test platform where organizations such as schools and companies can create exams, and users like students and job seekers can attempt them.
- A completed application that facilitates the easy creation of tests, secure test-taking, and viewing ranks on a leaderboard. .
